Congress of the United States
House of Representatives
Washington, DC 20515-4006

March 30, 2009

The Honorable David R. Obey
Chairman
House Appropriations Committee
H-218, The Capitol
Washington, DC 20515

Dear Chair Obey:

I am requesting funding for Solid Oxide Fuel Technology in Fiscal Year 2010. The entity to receive funding for this project is the University of South Carolina, located at the Office of Research and Health Sciences, University of South Carolina, Columbia, South Carolina, 29208. The funding will be used for the development of micro-miniature solid oxide fuel cell technology and systems for Army highly-mobile C4ISR and medical operations, micro-flight systems, and other power needs. This project would be a good federal investment. I certify that neither I nor my spouse has any financial interest in this project.

James E. Clyburn
Member of Congress
