

Congress of the United States
House of Representatives
Washington, DC 20515-4006

April 26, 2021

Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for in fiscal year 2022 from the Subcommittee on Transportation, Housing and Urban Development and Related Agencies, under the Economic Development Initiative account, for the following project:

Putting the Tech back in Denmark Tech: Enhancing sixty-one (61) year-old facilities to provide transformational Career and Technical Education Programs

The entity to receive funding for this project is:

Denmark Technical College
1126 Soloman Blatt Blvd
Denmark, SC 29042
SC-06 Congressional District

The funding would be used for much-needed facilities enhancements which will enhance training provided by Denmark Technical College to citizens from three of the most economically deprived rural counties in South Carolina. Specifically, the funds would be used for the renovation of two campus industrial buildings, the replacement of wastewater lift stations on campus, and the replacement of building doors throughout the campus to support ADA compliance.

This project is an appropriate use of taxpayer dollars and has support from multiple local governmental and educational partners. I certify that neither I nor my immediate family has any financial interest in this project.

With kindest regards, I am

Sincerely,

James E. Clyburn
Member of Congress (SC-06)
