

Congress of the United States
House of Representatives
Washington, DC 20515-4006

April 27, 2022

Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for Skilled Trades Training Equipment at Midlands Technical College in fiscal year 2023 from the Subcommittee on Labor, Health and Human Services, Education and Related Agencies under the Higher Education account.

The entity to receive funding for this project is Midlands Technical College , located at:

Midlands Technical College
P.O. Box 2408
Columbia, SC 29202
SC-06 Congressional District

The funding would be used to upgrade and expand training equipment for the Advanced Manufacturing and Skilled Trades programs including Welding, Advanced Manufacturing, Automotive, Heavy Equipment Operation, HVAC, and Commercial Graphics.

This project is an appropriate use of taxpayer dollars and would help the Advanced Manufacturing and Skilled Trades programs to attract and train students in a number of industry-recognized credentials. I certify that neither I nor my immediate family has any financial interest in this project.

With kindest regards, I am

James E. Clyburn
Member of Congress (SC-06)
